**Clearance Tag?** Check the *original* price. Is the 'clearance' price only a few cents less than the original? No deal!

**Buy 5 for \$10** (or similar) - Check tag or flyer to check if you **MUST** buy the full quantity to get the sale price. If not, only **GWYN** (get what you need!)

**\$2.50 each when you buy 4** (or similar) - Buy the set amount or you'll be paying the full price for each item.

**Compare the price per unit.** The unit price shows what the item costs per ounce, pound, package, etc. The lower the unit price, the better the deal.

**\$10 off when you spend \$25** - 40% discount

**\$20 off when you spend \$100** - 20% discount
